

## MASON WANTS TO FIX SALARY OF MINISTER TO IRISH REPUBLIC

Illinois Senator Seems to be Acting as God-father for Unrecognized Governments—Introduced a Previous Bill to Provide for the Salary of a Russian Ambassador

(By The Associated Press)  
WASHINGTON, Jan. 28.—Indirect recognition of the "Republic of Ireland" was knocked out in the house today on a point of order.

During consideration of the diplomatic appropriation bill Representative Mason, Republican of Illinois, a member of the foreign affairs committee, offered an amendment providing a salary of \$10,000 for a minister to Ireland, instantly half a dozen representatives were on their feet.

Chairman Rogers, of the sub-committee of appropriations in charge of the bill, challenged the right of the house to include such an amendment, on the ground that it was without authority of law and that there had been no executive recognition of Ireland.

Before the point was sustained by Representative Towner, Republican of Iowa, presiding, Mr. Mason declared the question of Ireland should be determined by congress on its merits and not on a parliamentary point. As the appropriation, if authorized, would not be available until July, Representative Connally, Democrat of Texas, also a member of the foreign affairs committee asked if Mr. Mason had any indication or assurance that Mr. Harding would designate a minister.

Mason is optimistic. "I have no promises, but I have hopes," Mr. Mason replied. "We all know, however, that President Wilson is not inclined to favor recognition."

An effort to cut the item of \$5,500 for a Japanese secretary at the embassy at Tokio, prompted Chairman Rogers to declare it was the most important in the bill. Expressing similar views concerning a Chinese secretary at Peking, Mr. Rogers said:

"The curse of history was apparently to depend upon these two positions."

The bill was shot at all day partly as a result of opposition from Republicans and Democrats alike to prepare appropriations under the so-called budget system.

Before taking up salary items for the consular service, Chairman Rogers explained that many of them were subject to points of order, but gave warning that the American service, especially in China and Japan, would be seriously impaired by their elimination. The house adjourned, however, before attack could be opened on the item.

## SWEETMAN RESIGNS FROM PARLIAMENT

Was Prominent in Peace Movement With England—Sinn Féin Leader Resented Peace Leads

London, Jan. 28.—The announced resignation of Robert S. Sweetman from the Irish Republican parliament owing to what he termed a radical disagreement with the majority of his fellow members on vital matters of policy is creating a big stir in London.

A prominent Sinn Féin leader today told The Associated Press that the resignation meant the final quashing of the peace movement in which Mr. Sweetman and Father Michael O'Flanagan, acting president of the Sinn Féin participated conspicuously.

Mr. Sweetman formerly was a member of the Nationalist party. He resigned from it and joined the Sinn Féin and was elected to the Dail Eireann for North Wexford. It is an open secret in Dublin that the Sinn Féin leaders recently resented the Sweetman-O'Flanagan peace pronouncements.

## LITTLE CHANCE OF TARIFF MEASURE COMING TO VOTE

Open Filibustering Charged—Senator King Talks All Afternoon

VARIED DISCUSSIONS  
SCHEDULED FOR TODAY

(By The Associated Press)  
WASHINGTON, Jan. 28.—Consideration of the Fordney emergency tariff bill was delayed in the senate again today and new rocks appeared in its path.

With filibustering openly charged leaders of both sides declared that the chances of the measure coming to a vote in this session were gradually growing less. Another session of varied discussion is scheduled for tomorrow but it is planned now to turn to the big appropriation bills when the senate convenes Monday. Once the tariff legislation is displayed advocates of the bill admit it will be difficult to get it up for consideration again.

Talks All Afternoon.

The consideration given the tariff at today's session consisted of a speech by Senator King, Democrat, Utah, on Russian trade which occupied almost the entire afternoon and contained only occasional references to tariff matters and brief exchanges concerning the meaning of Senator Penrose's closure petition which was circulated yesterday.

When the senate recessed Senator King announced that he had much more to say tomorrow and it was understood also that several other senators were preparing to speak on subjects not closely related to tariff questions. This prospect was said by leaders to mean the hastening of action on the plan to lay aside the Fordney bill and dispose of the money measures which have come over from the house.

## CLARENCE SIMMONS PLACED ON TRIAL IN OKLAHOMA CITY

Wants No Anti-Horse Thief Members on Jury

IDENTIFIED AS MAN  
WHO STOLE HORSE

(By The Associated Press)  
OKLAHOMA CITY, Okla., Jan. 28.—Charged with having participated in the robbery of an Indian camp eighteen years ago and with having stolen a horse, Clarence Simmons, known also as Jackson J. Smyth, alleged to have been a member of a gang of bandits notorious in the days before Oklahoma became a state, was placed on trial in federal court here today.

Simmons, according to the authorities took part in a gun fight with federal officers in 1903 near what is now Pawhuska, Okla., when two brothers named Martin, leaders of the gang were killed and Wiley Martin, a deputy United States marshal seriously wounded. Simmons is charged with having fired the shot which wounded Martin. He will be tried on that charge when the present case is concluded.

William Watson of the Osage Nation, father of the man whose horse was stolen was the principal witness at today's session. He identified Simmons as the man who took the horse.

Depositions from residents of Florida, read into the record declared Simmons was working for a Florida lumber company in 1907, at the time of the Indian Camp robbery.

Considerable difficulty was encountered in empaneling a jury. Each prospective juror was asked if he had ever been a member of an Anti-Horse Thief organization.

## JAPANESE MAKE REPLY TO NOTE ON LANGDON KILLING

Does Not Touch on Jap Occupation of Siberia

BELIEVED NOTE IS  
NEW REPLY

(By The Associated Press)  
TOKIO, Jan. 28.—The Japanese answer to the note of the United States government concerning the recent killing of Lieutenant Warren H. Langdon in Vladivostok, has been forwarded to Washington.

According to information available here the reply does not discuss the question of Japanese occupation of Siberia. It reiterates the regret of the government over the shooting of Lieutenant Langdon. The communication says the investigation into the shooting will be followed by such reparation as the circumstances call for.

Treated as Separate Question.

Altho the shooting of Lieutenant Langdon was an outgrowth of the presence of Japanese troops in Vladivostok, the Japanese apparently think it should be treated as a separate and distinct question, not connected with Japanese policy with regard to Russia. The authorities today denied the statement published yesterday by the Asahi Shinbun to the effect that the police had decided to show greater surveillance over American visitors to Japan.

American visitors the authorities declared were welcome in Japan and would not be molested.

Believed is New Note.

Washington, Jan. 28.—The reply of Japan to the American government's Langdon note announced in a Tokio dispatch of yesterday's date as having been forwarded to Washington is regarded by officials here as a new communication and not the brief reply received by the state department thru the Japanese embassy Wednesday.

The note mentioned in the Tokio dispatch, if it be a new communication, had not been received tonight when the state department offices closed.

The United States in its note concerning the killing at Vladivostok of Lieutenant W. H. Langdon, American naval officer, by a Japanese sentry did not bring up the question of Japanese occupation in Siberia. It was learned today. The views of the American government on that question had been put forward in previous communications.

## BILL TO PROTECT MOTHERS AND BABIES

Allege They Are Safer in Foreign Countries Than in United States—Death Rate from Child Birth Increases

(By The Associated Press)  
Washington, Jan. 28.—Motherhood is safer in any of seventeen foreign countries than in the United States and babies in ten other countries have a better chance of living thru their first year, according to the views of the American government on that question had been put forward in previous communications.

The report classed the bill as emergency legislation and said there was practically no opposition to it. The committee found, it said, that maternal and infant mortality in the United States was not decreasing statistically before it showing a fifteen per cent increase in deaths from child birth between 1919 and 1920.

Infants under one year old are dying from preventable ailments at the rate of 250,000 a year, the report said.

"In rural sections studied, it was ascertained," the report added, "that eighty per cent of mothers received no advice or training care preceding the birth of children."

## COLLEGE STUDENT IS ACQUITTED OF MURDER CHARGE

Mother Says That "God Has Been Good to Her"

PRISONER BREAKS  
DOWN AND WEEPS

(By The Associated Press)  
PHILADELPHIA, Jan. 28.—William M. Brines, was acquitted today of the charge of killing Elmer C. Drewes, the University of Pennsylvania sophomore was freed on the ground that insufficient evidence had been submitted to connect him with the Dartmouth College seniors death.

The acquittal was followed by a commotion in the court room. A momentary silence, abruptly broken by gasps, hysterical feminine laughter and noisy moving of chairs was followed by sharp demands for order by court attendants.

Mrs. Annie Brines, the widowed mother of the accused student, wept.

"This is the happiest moment of my life," she exclaimed as she kissed her son. "They have given me my boy. God has been good to me. I know my boy and I know his conscience and I know he did not kill Elmer."

Brines' shell of reserve which he has maintained since the trial began on Monday, dropped from him. Impulsively threw his arms about his mother's shoulders and burst into tears. Then he left the court room with her.

Mrs. Christian Drewes, mother of the dead student, who had collapsed in court this morning when Brines counsel suggested that Drewes might have committed suicide, moaned piteously.

"My poor Elmer," she sobbed, "he didn't kill himself. This is terrible. There is a higher judge who looks over us all. He is the one who will see justice done."

## PEOPLE WHO LIKE RUSSIAN SOVIET SHOULD GO THERE

This is What Senator King Of Utah Thinks About It

WOULD BE GLAD  
TO GET RID OF THEM

(By The Associated Press)  
WASHINGTON, Jan. 28.—Resolutions before the senate foreign relations committee proposing measures to extend American trade with Russia were assailed today by Senator King, Democrat, of Utah, in an extensive address in the senate.

"I wish many who are agitating for recognition of the Russian soviet would go to Russia; we would be glad to get rid of them," the Utah senator declared.

Senator King denounced the soviet at length and had several lively clashes with Senator France, Republican of Maryland, author of the Russian trade resolution. The latter declared that refusal of the United States to trade with Russia was one barrier against trade with Russia.

Senator King said the Russian soviet government had "stolen great quantities of gold and the government here was justified in refusing to mint gold the ownership of which was doubtful."

## UNITED STATES IS RESPONSIBLE FOR PLIGHT OF ARMENIA

A College Professor Takes Issue With Washington

TERMS WARNING AS  
COUNSEL OF COWARDICE

(By The Associated Press)  
PHILADELPHIA, Jan. 28.—Men will still have to face death fighting for or against the stabilizing and continuity of the decision made in the treaty of Sevres with respect to Palestine, Syria and Mesopotamia, Dr. William Linn Westermann, of the University of Wisconsin, declared tonight before the Philadelphia Public Ledger Forum in an address on the peace conference.

Dr. Westermann was chief of the eastern division of the American Peace Commission.

Yet for the results of the Turkish treaty and other negotiations which accomplished it, are and are virtually a part of it, are, on the whole, to be rated as a gain to the Greek, to the Arab peoples, to the Jews, to the Turks themselves, and to the world at large, he continued.

United States Responsible.

Dr. Westermann charged the United States with being directly responsible for the plight for Armenia by default of service. Speaking of the policy of "no entangling alliances," he said:

"A caution justified at the turning of the nineteenth century has become a counsel of cowardice in the twentieth century. \* \* \* when boldness, confidence in the strength of our own political integrity and active support of a new political ideal might have saved Armenia and with it the Near East, we held back. President Wilson is not responsible for this. We are, we, the people of the United States."

## PROPOSED CUT IN ARMY IS OPPOSED

Indications Point to Hard Fight on Plan to Reduce Army to 150,000 Men

WASHINGTON, Jan. 28.—Storm warnings were up in the house today over proposals of the appropriations committee to pare the regular army down to 150,000 men.

The appropriation bill making provision for that number during the next fiscal year was reported by Chairman Anthony of an appropriations sub-committee; but it was indicated that Republican members of the military committee planned to fight it on the floor.

Several members asserted their unwillingness to accept further reduction below the 175,000 figure fixed by house and senate recently in a resolution which reached the White House today for consideration of the president.

In reference to Representative Anthony's statement yesterday that President-elect Harding favors the 150,000 figure, Representative Kahn said that in his conference at Marion he got the impression that Mr. Harding regarded that step as advisable "ultimately" but not at once.

## HARDING WILL END BOAT TRIP AT MIAMI SOME TIME SATURDAY

Will Then Continue Southward for Fishing Trip

RECEPTION HAS  
BEEN ABANDONED

(By The Associated Press)  
MIAMI, Fla., Jan. 28.—The House Boat Victoria, on which President-elect Harding is cruising down the Florida Coast tied up tonight at Fort Lauderdale, about thirty miles above here and is expected to complete her southward voyage to this port tomorrow.

Miami is the southernmost point on the Victoria's schedule but after a short stop here Mr. Harding will transfer to a faster boat for a trip to a fishing ground to the southwest. He will remain there in virtual seclusion for several days before beginning his return cruise to St. Augustine.

In her sailing today thru the Tortugas passages of the lower Indian river the Victoria got into trouble several times with the natural obstructions of the channel and once had to wait for more than an hour while a big dredge backed out of her way in one of the narrows. With her arrival at Fort Lauderdale, however, her troubles were practically over and she probably will dock about noon tomorrow to put her guests ashore for a game of golf.

An elaborate reception originally was planned here for the president-elect and his party but after consultation with him, officials of the local reception committee, it was decided that the visit would be celebrated only by the display of flags and other patriotic emblems. It now is expected that tomorrow's call will be more or less perfunctory, but Miami business men still hope that he will make a longer stop on his way back from his fishing trip.

## CHARGE FRAUDULENT TRANSACTIONS WERE CAUSE OF R. R. SALE

Allege Advertisement Was Worded in Covert Language

WANTS COURT TO  
DENY CONFIRMATION

ST. LOUIS, Jan. 28.—Affidavits alleging fraudulent transactions led to the receivership sale of the Denver & Rio Grande railroad were filed today with Federal Judge Walter H. Sanborn and Robert E. Lewis, sitting here as the district court of Colorado. The affidavits were filed by John L. Webster of Omaha, Neb., counsel for intervening stockholders who are attempting to have the federal court deny confirmation of the sale.

Mr. Webster asserted that the physical property of the road was valued at \$225,000,000 altho it was sold for \$5,000,000 and that securities held by the road were worth \$9,722,000 alone.

The affidavits declared that advertisements of the sale were worded in covert language, "so the prospective bidders would not understand the value of the property."

This Mr. Webster continued, was to discourage others than the interlocking directorates from bidding at the sale.

## SUPREME COUNCIL FINALLY AGREES ON REPARATIONS

Only Remains for t  
Formal Endorsement Today

BELGIANS ACTED AS  
PEACE MAKERS

(By The Associated Press)  
PARIS, Jan. 28.—The session of the committee of experts of the allied supreme council ended at 12:30 o'clock this (Saturday) morning after having reached a complete agreement on the system of annual payments of reparations by Germany and annuities on Germany's foreign trade.

It now remains only for the plenary sitting of the supreme council today (Saturday) to endorse the agreement, draw up instructions for the Brussels experts and fix penalties for defaults by Germany.

Premier Briand declared as he came from the meeting early this morning that the conference of the supreme council would not break up without having reached a definite decision.

The proposed scheme provides for the payment of annuities on a sliding scale of from 2,000,000,000 to 5,000,000,000 gold marks over a period of probably forty-two years and also a 12 1/2 per cent ad valorem tax on German exports so that her creditors will be paid according to Germany's increasing prosperity.

End Came Suddenly.

The sudden ironing out of differences came after two days of a continually widening breach that threatened to break up the conference. It being virtually suspended except for private conferences.

Official French circles give the Belgian delegation credit for the success of reconciling the British and French viewpoints.

Stipulation was rife thruout the day as to what ultimately would be the result if an agreement were not reached. The general opinion seemed to be that, should failure result, M. Doumergue, minister of finance, would be held responsible for raising objections to a settlement of the reparations question and find it necessary to resign. Those close to Premier Briand expressed the belief that if M. Briand were unable to conciliate the French view with that of the British he would report the circumstances to the French Chamber and then announce the resignation of the entire French cabinet.

Late in the afternoon the alternative proposition was submitted to the French delegates providing for fixed annuities for forty-two years plus varying annuities figured on Germany's foreign trade. This plan was suggested to give satisfaction to the French viewpoint, that owing to the impossibility of determining now what Germany's situation will be in the future no part of France's claim should be abandoned. Under this plan, the French and other creditors of Germany would be paid a minimum consisting of fixed annuities and an additional sum proportionate to the economic prosperity of Germany.

Pana, this state, has an unusual record. The mayor there is just rounding out his 13th term. Either this man is a remarkable executive in that he is able to keep the good will of a constituency thru a very long period, or else the job is very undesirable. Those who know something about Pana say that the first proposition is true and that Mayor Schuyler has made a splendid executive.

Every once in a while there is an indication that good Morgan county land is selling at good prices. Where sales are forced there have been occasional cases of marked depression. Possibly the high levels of a year ago do not prevail but there is no question but that the prices for good quality land are very considerably higher than in 1917, and will remain so.

These are days of conferences and conventions, especially as related to church projects. This applies to practically all of the denominations. Sometimes one cannot but wonder whether all of these present day movements are well founded and necessary. In some lines not distinctly religious it is possible to overdo organized effort.

Roger Babson as a market statistician recently advised farmers to take present conditions as they are, to stop hoarding and to throw their products upon the market. Mr. Babson believes that only in this way will conditions become anything like normal so far as agriculture is concerned.

A glance at the market reports this week would indicate that the Babson advice is being followed, for in one day 16 carloads of corn went into the Chicago market. Incidentally it is worth considering what would have resulted from such a volume of business without a board of trade in operation.

The well-known innumerable problems, foreign and domestic, which now confront America and which will arise in the future, call for the education of our youth along lines differing considerably from the college curricula of some years ago. Appreciation of this fact is evidenced by the establishment of chairs in many of our leading institutions of learning devoted to the teaching of subjects classified as "the newer humanities." The aim is to equip students with an education suitable for practical application to the times and the manners, rather than to serve them

up to greedy world stuffed with Greek roots and garnished with Latin truffles.

The school of diplomacy, jurisprudence and citizenship of the American University, Washington, D. C., having completed its fall term of very successful experimentation along essentially practical educational lines, has just opened its winter term with every prospect of success and the happy consciousness that it is engaged in a work which will reflect credit on the academic world and be helpful to the nation.

Jacksonville people who have heard in recent days the eye witness stories of conditions in the Near East have come to a real understanding of the often quoted words "the unspeakable Turk." Some men have read of these things and there has come the thought that exaggeration has entered into the narrative, but now there comes indisputable evidence that Turkish atrocities in the Near East measure up with the most barbarous things known to history. Certainly this cry from Assyria and Armenia must not go unanswered.

In the school declamation contests it has long been the custom to quote "What constitutes a state?" Not high raised battle-cries or labored words; thick wall or moated gate, but men—high-minded men—they constitute a state.

These time-honored phrases are brought to mind by the statements that appear now quite frequently in the state press as they urge civic pride and city spirit. People seem to be coming into a reawakened knowledge of the fact that advancement for cities is not altogether a material thing.

It is the spirit that counts most. It is the atmosphere that is needed in most cities. When this right spirit prevails and people are pulling together—each taking pride in their city, and ready to help each other and to boost instead of criticize—then the material things that are needed are almost certain to follow in the wake.

**Harker.**  
Funeral services in memory of Albert Joseph Harker were held at 10 o'clock Friday morning in the chapel at Illinois Woman's college. Rev. E. L. Pletcher was in charge of the service, assisted by Rev. T. H. Tull. Hymns which were favorites of the deceased, were sung by Miss Louise Miller, with Mr. Pearson as accompanist. Mr. Tull read passages from the scripture and offered a prayer.

Mr. Pletcher spoke in a very appropriate way of the life which had closed after long years of suffering. He said that he liked to think of death as an invitation to another and a better world. "My idea of Heaven," said the minister, "is a place where each one develops along some line for which he is fitted. Those who pass to that home will take with them none of the weaknesses that they have had in this world but there spirits will become finer and there will be the development that leads toward perfection. As the one we mourn today was denied strength and health thru so many years, it is my thought that the frailness will have dropped from him like a mantle in that other world."

An astrologer once found after twenty years of searching a certain star long unseen, which was influencing other of the heavenly bodies. Who can say that this lad from his bed of pain has not radiated an influence which has given inspiration and strength to Dr. and Mrs. Harker for the doing of the large tasks that have been allotted to them in the work of life.

Mr. Pletcher closed with a word of prayer and then the cortege moved to Diamond Grove cemetery, where the remains were laid to rest. The flowers were cared for by Misses Thompson, Knopf, Neville, Anderson, Powell and Miner. The bearers were: Messrs. W. G. Goebel, Thomas H. Buckthorpe, Chester Hemphill, Fletcher J. Blackburn, Claude Vail and Mark Hunt.

**AUTOMOBILE SHOW**  
**WILL BE GIVEN HERE**

Dealers Met Yesterday to Outline Plans for Big Spring Exhibit.

At a special meeting of the Jacksonville Automotive dealers association held yesterday it was decided that an automobile show will be an event of the early spring. L. F. O'Donnell, who was recently appointed chairman of a committee to consider this plan, made favorable report which was unanimously adopted.

Present plans, although not fully matured, will mean an automobile show worthy of the name, one that will interest not only the people of Jacksonville and Morgan county but those outside this area.

Howard Zahn has offered his spacious H. Z. Auto Inn for this event and at least 15 dealers will have displays. The event will be looked forward to with a great deal of interest.

Automobiles of all models, trucks, tractors, farming implements adjustable to tractors and automobile accessories will be shown. The exact date of the show has not been decided upon, nor the length of time the show shall run.

Details of the show are yet to be worked out. The members of the Automotive Dealers' association are enthusiastic over plans. Each one will be allotted ample space so that they may show their cars to good advantage.

Such a show has never before been attempted in Jacksonville, but the dealers believe they can put it over in fine shape.

Members of the local association went to DeSilva's for lunch at 12 o'clock, and then adjourned to the D. N. James sales rooms in the Scott block, where the business was transacted. Reports were made by the dealers who attended a meeting of automobile men Thursday in Springfield, at which R. Haas, president of the Springfield Association of Automobile Dealers, was host.

They reported that at this conference methods of selling were outlined and general business conditions discussed. The dealers appeared optimistic and believe that the automobile business this year is going to be good.

The Jacksonville dealers at their meeting talked over plans for handling used cars. This led to an interesting discussion.

There are more than eight million used cars now traveling streets and roads of the United States. Since the year 1916 one million five hundred thousand new machines have been sold annually. This in itself is a great business, but the public looks upon a used car as something rather worn out.

Dealers are now engaged in a campaign to educate the public that although a car may have been used, it is of some value. In other words, they expect to give considerable time to handling used cars.

According to the dealers who met, the majority of cars will be higher in price this spring, owing to labor conditions and the high cost of material. Several dealers have already been advised that the machines they handle will be higher in price.

**Deaths**

**Morton.**

Morton of Taylorville, father of the deceased physician. The remains will arrive in Taylorville tonight and the funeral will be held Sunday afternoon.

If at all possible Mr. and Mrs. Stevenson, who are long time friends of the Morton family, will attend the funeral.

As a boy Dr. Dwight Morton was a resident of this city. After completing his medical studies he entered upon the practice of his profession and became one of the best known physicians in Christian county. His serious illness has been a matter of general knowledge in his home city and county for some weeks and regret for his death will be widespread.

## PITTSFIELD HIGH PLAYS HERE TONIGHT

Strong Pike County Team Will  
Play Jacksonville at David  
Prince Gym—Visitors Are One  
of Strongest Teams in This  
Section.

Pittsfield high comes to Jacksonville to meet the local high five in David Prince Gymnasium this evening.

The Pike county aggregation has one of the strongest teams that ever represented the county and have been taking the measure of nearly every team they have played this season.

About two weeks ago they defeated the locals in Pittsfield by a good sized score. The locals will fight hard tonight trying to reverse that decision.

However, the visiting team is composed of veterans, the men nearly all having played with the team last year. They will be a hard aggregation to beat. Fans may rest assured of seeing a hot contest from the first to the final whistle this evening. The game will start at 8 o'clock.

### ZAINA CURZON IN "TWIN BEDS"

AT THE GRAND TONIGHT

Like all things which succeed, the title, "Twin Beds," seems to be just the exact name to fit Salisbury Field and Margaret Mayo's supremely funny farce to be seen at the Grand theatre tonight, with a special matinee. Its rapidity of action and its deft sureness of characterization, added to its surprising slang and brilliant wit, make it invariably with provoking to huge audiences. "Twin Beds" is a rapidly moving exposition of the difficulties that are encountered by three couples who live in fashionable large apartment houses, who find the enforced neighborliness of these places not at all to their liking, and who, in their futile efforts to escape it, only discover that their troubles are trailing them with a burn-line persistence.

The cast of comedians includes Zaina Curzon, its featured member, R. M. D'Angelo, Antoinette Rochto, Jos. Crehan, Bess Stafford, Callie Van Vleet, Bennett Flinn, and others.

SEED CORN.

We have had a wonderful se-

ason at Mason City this year for

maturing seed corn with the re-

sult that we have the finest lot

of well dried 1920 crop of seed

corn that we have ever grown.

This corn is gathered early in

the fall and placed on drying

racks when it is very slowly

dried down to twelve or fourteen

per cent moisture content. This

gives corn of very high vitality.

We have been in the seed corn

business in a large way for over

thirteen years and have the larg-

est and best equipped drying

plant in the world. Our down-

town plant is in the center of

Mason City, right on the hard

road between Springfield and

Peoria. It is well worth a trip

to Mason City to see this corn.

Price is only \$3.50 per bushel.

### NEAR EAST HORRORS

#### HELD UP TO VIEW

Dr. Yonan Told of Almost Unbelievable Turkish Practices—Suffering Women and Children Look to America.

The regular program at the meeting of the Rotary club Friday at the Pacific hotel was postponed. This unusual action was taken because the members were in no mood for the discussion of business affairs after they had listened to the story of the plight of the people of the Near East as narrated in most dramatic way by Dr. Jesse Yonan, who was the principal speaker of the day. Before this address President Pontius introduced Mrs. Robert Jarvie, who is field organizer for Illinois in the European relief campaign.

Announcement had previously been made that M. C. Hook will be the city chairman and Hugh P. Green county chairman in this special effort to raise a fund for the famine sufferers in Central Europe and the Near East.

There was a number of guests present and they were merely introduced, so that all the time possible might be available for the program. Mrs. Jarvie spoke very briefly, telling of the progress of the relief campaign elsewhere and the earnestness shown by other men and women in assisting in this great work.

Dr. Yonan is an Assyrian who was educated in the United States. He was a classmate of Dr. Edward Rowe at Rush Medical college and subsequently returned to his native land to practice medicine. There with passing years he came into prominence professionally and as a leader in civic and political affairs. He appeared before the peace council at Versailles to present the cause of his own nation and that of Armenia.

**Organizing Conditions.**  
Dr. Yonan speaks with just enough of a foreign accent to add impressiveness to the delivery of his story. It is easy to understand that a man cannot spend years amid the agonizing conditions that have existed in the Near East for years without these conditions impressing the soul and the life. Dr. Yonan during the war time passed thru terrible experiences. Two sisters were slain with swords in his presence by the barbarous Turks and in another attack by the Turks he lost his wife, daughter and all near relatives. His fortune was swept away, everything of a physical kind that he owned, but as he said yesterday, the mere loss of money and personal position counted little. It was the fact of having his home and family utterly demolished that has taken all personal interest out of his life.

"To me," he said, "there is nothing of appeal in music or in art. The sunshine is no longer bright and those things that appeal to normal men do not touch me. In this regard I am but one of many thousands in my home country, where war and the unspeakable cruelties of the Turk have bereft us of all family and home ties."

With graphic touch Dr. Yonan described the war time inroad of the Turkish forces upon the Assyrian and Armenian peoples. He said: "In former conflicts as a place of last resort the people fleeing from the Turks took refuge in the French mission in charge of a Catholic priest or the Presbyterian mission building. But in the war time there was no safety even in these places of usual refuge and the several thousand men, women and children who huddled into these buildings for safety were ruthlessly cut to pieces or put to death after the most pitiless torture."

**Unspeakable Atrocities**  
"Children of tender years were held up by the hair while Turkish soldiers made efforts to sever the head with one blow of the sword. Women and children were stripped entirely of clothing and made to pass for inspection before the officers of the army. The most hideous indignities were heaped upon the defenseless people and it is a fact that today there are 50,000 Assyrian and Armenian women in the harems of Turkey."

Dr. Yonan made the charge that this condition exists because the allied nations permitted it to exist and have not made the demand that would free these women from their servitude. He said that primarily the condition of the people of Assyria and Armenia is the result of their Christian faith. It is their unwillingness to become Moslems that has made them the object of frequent attack and of endless persecution.

**Without Homes or Food.**  
Because these people of the Near East united with the allies in the war time, these persecutions and indignities were increased. The speaker described present day conditions as the worst ever known for thousands upon thousands of children are orphaned with no place to live and no one to care for them. As a result, thousands upon thousands have died from starvation and exposure, and that is the program of every day.

Dr. Yonan said that it is the generosity of America which has kept the Assyrian and Armenian people from annihilation in the past years and now that conditions are even worse than before, he asked the question if the people of these United States are going to allow these men, women and children of the Near East, followers of the Christian religion, their allies, to perish from the earth.

After Dr. Yonan with broken voice had closed his appeal Mr. Pontius said it was not time for applause, but suggested instead a moment of silent prayer and asked that Rev. W. H. March

### J. H. BRANER'S WILL

#### PLACED ON RECORD

Extensive Land Holdings Will Be Sold by Executor—Proceeds to Be Divided Into Five Parts Among Cousins of Deceased—Will Has Six Codicils.

The will of the late John H. Braner, who was an extensive land owner, was filed for probate Friday, in the office of County Clerk G. L. Riggs. The document was drawn Nov. 6, 1914, and appointed John McFadden, friend of the testator, the executor. The signature is witnessed by John H. Russell and Edward M. Dunlap. There are six codicils to the original will, made on the following dates: First codicil, Nov. 24, 1914; second codicil, Dec. 1, 1916; third codicil, Nov. 4, 1918; fourth codicil, April 12, 1919; fifth codicil, Dec. 26, 1919; sixth codicil, Nov. 5, 1920. Each codicil was witnessed by John H. Russell and Edward M. Dunlap and in addition, the fifth codicil has the signature of William E. Thomson as an attesting witness.

Mr. Braner, who was one of the long-time residents of the northwest part of the county, was sixty-seven years of age when the original will was made. After providing for debts and funeral expenses, he delegated to his executor power to sell his property either at public or private sale. It was directed in the original will that the proceeds should be divided into five parts. Two-fifths was bequeathed to Ennis Patten, cousin of the testator; one-fifth to Oscar A. Braner, second cousin; and one-fifth to William A. Bridgman, second cousin.

The first codicil was made in order to establish the identity of Elias Braner, as there seemed to be two members of the family of the same name. In the second codicil the provision in the original will bequeathing one-fifth of the estate to Oscar A. Braner was revoked and Mrs. Vina Hogan was named as a delegate to receive this one-fifth interest. In the next codicil Mr. Braner revoked the legacy to Mrs. Hogan and directed that instead one-fifth share in the estate should become the property of Mrs. Hogan's daughter, Mrs. Maude Grace Greenwood.

In the fourth codicil the legacy to Mrs. Greenwood was revoked and provision made that the one-fifth share is to become the property of Newell Braner. In the fifth codicil the testator recorded his determination to revoke the legacy to Newell Braner and provided that the one-fifth share in his estate shall become the property of Irena Braner, who is the wife of Newton Braner, a cousin of the testator.

In the final codicil, which as indicated above was made in November, 1920, Mr. Braner revoked the provision wherein he bequeathed one-fifth share in the estate to Irena Braner. Instead he named as legatee Bert Laughtery to receive this share in the estate, and provided that in case of the death of Mr. Laughtery prior to his own, that the share in the estate should descend to the heirs of Mr. Laughtery as provided by the laws of descent.
